

International Scientific Conference of Medical and Biological Technology

Body text: 40 pt.

This poster template is provided by the SIU Medical library. The template creates posters of the A0 poster size (84.1 cm x 118.9 cm, or roughly 33.1 inches wide by 46.8 inches tall), which is a common poster size for European conferences. As our paper is 36 inches wide, the poster will have blank edges to trim.

Copy and paste your poster text into the appropriate boxes. Some helpful hints:

- Minimize the amount of text!
- Be precise & succinct
- Use bullet points
- Where possible use diagrams or symbols
- ALL text should be large enough to read from several feet

You can use PowerPoint's SmartArt to create flow charts and other types of diagrams.

1. Insert SmartArt
2. Select a diagram appropriate for your needs
3. Use the "insert text" box to label and add to your diagram.
4. Clicking on the art will add Format and/or Design "SmartArt" ribbons to your menu options.

Results

Column1

PowerPoint allows you to create basic charts, graphs, and tables. To insert a chart of graph:
 1- Insert → Chart
 2-Select the type appropriate for your data.
 3-Input your data to the spreadsheet popup.
 4-The Design and Format "Chart Tools" ribbon will allow you to change the colors and layout or your chart as well as, add or edit the underlying data.
 5-In PP 2013, clicking the graph pulls up Chart "elements," "styles," and "layout" buttons for quick edits.

Figure 1.

Figure text. Aenean imperdiet. Etiam ultricies

Column2

Figure 2.

Aenean imperdiet. Etiam ultricies nisi vel augue. Curabitur ullamcorper ultricies nisi. Nam eget dui.

to insert an image:

Insert Pictures

Navigate to the appropriate folder in the file manager.

Select the image file and click "OK."

Clicking the image will bring up a Format "Picture Tools" ribbon that provides very basic photo cropping, color and artistic effects, and border options.

Column3

To Insert an existing table from Excel:
 1- Insert → Object → select Create from file →click Browse → locate your file and click OK
 2-To create a new table:

Insert → Table

-Use the grid to select the number of rows and columns, OR

-Draw the outline of the chart where you'd like it

-Use the "Table Tool's" Layout ribbon to add/delete rows or columns to the table.

Use the "Table Tool's" Format ribbon to change the table color and design

Alpha	Bravo	Charlie	Echo
123	123	123	123
123	123	123	123
456	456	456	456
456	456	456	456
789	789	789	789
789	789	789	789

Table 1.

Aenean imperdiet. Etiam ultricies nisi vel augue.
